

Stocks with Highest Number of Price Target Increases

NVIDIA (NVDA) leads all S&P 500 stocks with **652 price target increases** from 49 unique research firms, followed by **Alphabet (GOOGL)** with 590 increases from 59 firms, and **Netflix (NFLX)** with 523 increases from 58 firms.

Key Findings

Top 5 Stocks by Price Target Increases:

- **NVDA (NVIDIA)**: 652 increases, avg increase of \$67.41
- **GOOGL (Alphabet)**: 590 increases, avg increase of \$99.16
- **NFLX (Netflix)**: 523 increases, avg increase of \$70.34
- **AMZN (Amazon)**: 512 increases, avg increase of \$111.71
- **MSFT (Microsoft)**: 509 increases, avg increase of \$24.29

Technology Sector Dominance:

The top 15 stocks are overwhelmingly technology companies, including mega-cap tech (NVDA, GOOGL, AMZN, MSFT, AAPL), cybersecurity (PANW, CRWD), cloud software (CRM, NOW), and semi-conductors (MU, AVGO). This reflects both the sector's strong growth trajectory and high analyst coverage.

Largest Average Increases:

While NVIDIA had the most price target increases, **GOOG (Alphabet Class C)** had the largest average increase at **\$140.94**, followed by **CMG (Chipotle)** at \$113.51 and **AMZN (Amazon)** at \$111.71. These large increases reflect both stock price appreciation and growing analyst optimism.

Broad Analyst Coverage:

The most frequently raised stocks receive attention from a wide range of analysts. GOOGL and GOOG both had 59 unique firms raising price targets, followed by NFLX with 58 firms, demonstrating strong consensus around these growth stories.
